The Key Information Document was last updated on: 2026-10-29

WHAT IS THIS PRODUCT?

TYPE	UCITS fund
TERM	The Fund has no maturity date. The Fund Management Company has the right to close the Fund and redeem its units. Further information is available in the Fund's prospectus.
OBJECTIVES	The Fund is an actively managed global equity fund focusing on emerging and frontier markets. Its objective is to achieve high long-term returns, taking into account the Fund's risk level. At least 80% of the Fund's assets are invested in equities and equity-related securities issued by companies domiciled in, or conducting their principal business in, these markets. Returns are affected by changes in the value of the Fund's holdings and exchange rates. The Fund's performance is compared with the MSCI Frontier Markets xGCC Net Total Return Index, but the Fund does not track the index and its holdings may differ significantly. The Fund promotes environmental and/or social characteristics through sustainability criteria and exclusions of certain business activities. The share class does not distribute income; income is reinvested. Subscriptions and redemptions are normally available on each Swedish banking day.
INTENDED RETAIL INVESTOR	The Fund may be suitable for retail investors seeking long-term exposure to emerging and frontier markets, with an investment horizon of at least five years. Investors should be able to tolerate significant fluctuations in value and the risk of losing their entire investment. No specific prior knowledge or experience of investment funds or financial markets is required.
	Depositary: SEB. The Fund's prospectus, annual report and half-yearly report are available free of charge in Swedish at www.tundrafonder.se. The latest net asset value per unit and other practical information are also available on the website.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

Lower risk — Higher risk

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets. We have classified this product as 4 out of 7, which is a medium risk class. This means that the Fund has a medium level of risk of fluctuations in the value of its units. The indicator mainly reflects changes in the value of the equities held by the Fund.

Be aware of currency risk. If your return is converted into a currency other than the share class currency, exchange rate movements may affect the final outcome. This conversion risk is not reflected in the risk indicator above.

Risks not captured by the risk indicator: Limited liquidity may make it difficult to sell holdings. Currency, counterparty and operational risks may also affect the Fund's value. This product does not include any protection from future market performance so you could lose some or all of your investment.

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios illustrate the worst, average and best performance of the Fund over the last ten years. Markets could develop very differently in the future. The unfavourable scenario occurred for an investment between 2025 and 2026. The moderate scenario occurred for an investment between 2017 and 2022. The favourable scenario occurred for an investment between 2016 and 2021. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period:	5 years		
Example investment:	€ 10 000		
Scenarios		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs:	€ 4 870	€ 4 500
	Average return each year	-51.3%	-14.8%
Unfavourable	What you might get back after costs:	€ 7 250	€ 9 780
	Average return each year	-27.5%	-0.5%
Moderate	What you might get back after costs:	€ 10 870	€ 14 380
	Average return each year	8.7%	7.5%
Favourable	What you might get back after costs:	€ 17 210	€ 21 490
	Average return each year	72.1%	16.5%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your adviser or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF TUNDRA FONDER AB IS UNABLE TO PAY OUT?

By law, the Fund's assets may not be held in custody by the Fund Management Company. Instead, each fund must have a separate depositary responsible for the safekeeping of its assets. If the Fund Management Company were to go bankrupt, the depositary would take over the management of the Fund. There is no other compensation or guarantee scheme for investors in the Fund.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you additional costs. If so, this person will provide you with information about these costs and how they affect your investment. If the Fund is included as part of another product, such as an insurance-based investment product, additional costs may apply to that product.

Costs over time

The tables show the amounts deducted from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount you invested (0% annual return). For the 5-year period, we have assumed that the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	€ 256	€ 1 791
Annual cost impact*	2.6%	2.6%

(*) This illustrates how costs reduce your return each year over the holding period. For example, if you exit at the end of the recommended holding period, your average return per year is projected to be 10.1% before costs and 7.5% after costs. The person selling you the product may receive part of the costs that you pay to us as compensation for their services. You will be informed of the amount.

Composition of Costs (amounts are based on an investment of EUR 10 000)

Cost	Description	If you exit after 1 year
One-off costs upon entry or exit		
Entry costs	We currently charge no entry fee. Under the Fund Rules, an entry fee of up to 5% of the amount you pay in may apply. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	€ 0
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	€ 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.5% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€ 251
Transaction costs	0.0% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€ 5
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	Not applicable

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended holding period: 5 years

The Fund has no minimum holding period. As the Fund invests in equities, a medium- to long-term investment horizon is appropriate. You should be prepared to hold your investment for at least five years. You can normally redeem your units on any Swedish banking day without a redemption fee charged by the Fund Management Company. Early redemption may result in a less favourable outcome. The Fund Management Company may temporarily defer dealing in fund units to protect the collective interests of unitholders. Further information is available in the Fund's prospectus.

HOW CAN I COMPLAIN?

If you wish to make a complaint about the Fund, you may contact the person who advised you on or sold you the product. You may also contact the Fund Management Company (www.tundrafonder.se/complaints), email nicoleta.lagerqvist@tundrafonder.se or write to Tundra Fonder AB, Nybrogatan 34, 114 39 Stockholm, Sweden.
